## **You might be owed a Tax Refund!**

Since launching our Tax Code Review service 20 years ago, **over 1,300 members** have now applied to have their tax codes checked for errors.

We are still astonished to see that **nearly 68%** of the members who've completed the review have found they had been given the wrong tax code by HMRC and were entitled to a tax refund. **The average refund so far is £143.585 each although some members have had over £2,500 back!**

As we're now in the new tax year, HMRC will have issued you with a new tax code. If you've not checked it, along with the codes they issued you in each of the last 4 years now's the time to do so.

With over half our members getting money back, if you have not used this service yet, **Bedfordshire Police Federation** are pleased to give you the chance to discover if you are due a tax refund.

The main points to note are:

- **The review will be completely FREE**
- **If you receive a tax refund, there is a fee of £38 if your refund is less than £100, or 38p for each £1 refunded if you receive more than £100 (if for any reason your refund is under £38, there will be nothing more to pay)**
- **Any refund you receive for a current year and paid directly into your wages will be free of charge**
- **You keep all the money you save in future years if they correct your current tax code**
- **In the rare case they believe you owe more tax, the Tax Refund Company will not inform HMRC**
- **If you have received a demand for underpaid tax from HMRC in the last 4 years, contact The Tax Refund Company as it may be wrong**

To discover if you are due some money back, apply [here](#).

Act now and get your money back.

Jim Mallen  
Chairman
